

Applied Research on Civil Engineering & Environment

Performance of Embedded of Precast Beam Type Wet And Dry Joint at Maximum Moment

(A. Rudi Hermawan, Eka Sasmita Mulya)

Green Building Concept with The World's Largest Seismic Isolated Hospital in Turkey

(Kemal Solak)

Investigation of Air Circulation for Indoor Air Quality of Middle-Class Apartment in Jakarta, Indonesia

(Dyah Nurwidyaningrum, Miftahul Ulum,
Billy Septanto Syamsumarno)

Risk Analysis of Toll Road Accident Using Fmea and AHP Methods

(Edelweis Gent Haryanto, Eva Azhra Latifa)

Scheduling of Application for Siteplan Authorization Permit

(Fitri Nugraheni, Vendie Abma, Sigit Yasien)

Applied Research on Civil Engineering and Environment (ARCEE)

Applied Research on Civil Engineering and Environment (ARCEE) is intended to be the journal publishing articles reporting the result of research on civil engineering and environment. Applied Research on Civil Engineering and Environment (ARCEE) invites manuscripts in the areas: material, structure, geotechnical, construction management, water resources, and environment, transportation, and implementation method & health and safety work in planning, operating, evaluating, and maintenance of building, bridge, and environment.

Applied Research on Civil Engineering and Environment (ARCEE) is published two times a year (August and February) by Civil Engineering Department of Politeknik Negeri Jakarta. The ARCEE had been registered number e-ISSN 2714-6553.

Editorial Board Structure

Editor in Chief : Dyah Nurwidyaningrum
Editorial Review Board : Putera Agung Maha Agung, Afrizal Nursin, Fauzri Fahimudin,
Zainal Nur Arifin, Eva Azhra Latifa, Anis Rosyidah
Correspondence Co-ordinator: Erlina Yanuarini
Social Media Co-ordinator : Muhammad Fathur Rouf Hasan
Associate Editors : Linda Sari Wulandari, Siti Aisiyah, Eri Esther Khairas
